CSA3710 SOFTWARE TESTING
EXPERIMENTS

Name: Kaviya V **Register No:** 192421022

QUESTIONS:

2. To write a case study to identify & analyze the requirements of ARMS Portals and to write a positive Test Scenarios as well as Test cases for the above application

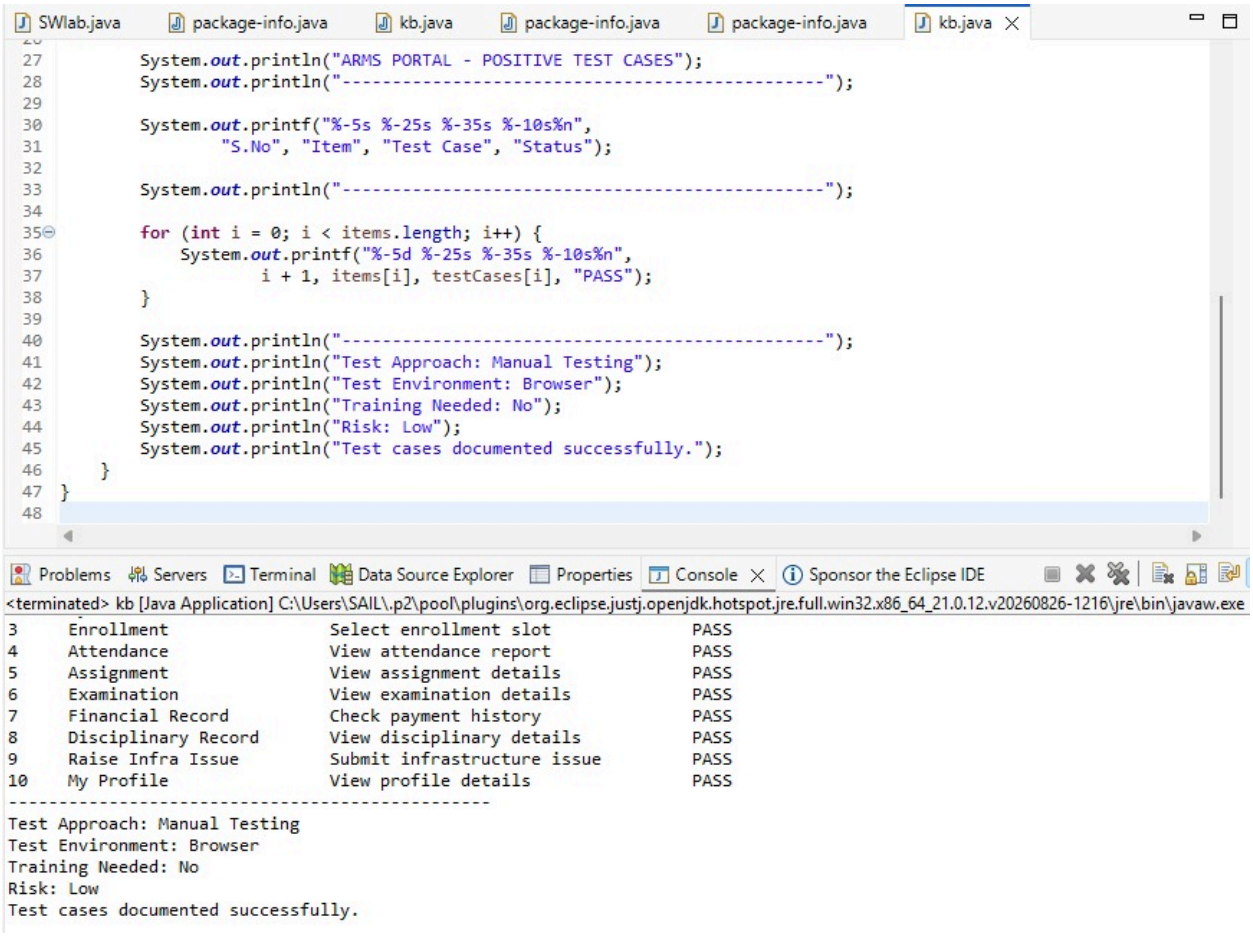

Report table:

S. No.	Item to be tested	Features	Approach	Test Data	Test Environment	Training Needed	Risk	Test Case / Scenario	Expected Output	Pass/Fail
1	Home	Holiday notification	Manual	No	Laptop/Browser	No	Low	Open ARMS and check the home page	Home page and notifications appear	Pass
2	My Course	Course status	Manual	No	Laptop/Browser	No	Low	Open My Course	Course status is displayed	Pass
3	Enrollment	Enrollment slot	Manual	Valid slot	Laptop/Browser	No	Low	Select an available slot	Slot is selected successfully	Pass
4	Attendance	Attendance report	Manual	Student details	Laptop/Browser	No	Low	Open attendance report	Attendance details appear	Pass
5	Assignment	Assignment details	Manual	Valid course	Laptop/Browser	No	Low	Open an assignment	Assignment details appear	Pass
6	Examination	Examination details	Manual	Student details	Laptop/Browser	No	Low	View examination details	Examination information appears	Pass
7	Financial Record	Payment history	Manual	Student account	Laptop/Browser	No	Low	Open payment history	Payment details appear	Pass
8	Disciplinary Record	Disciplinary details	Manual	Student account	Laptop/Browser	No	Low	Open disciplinary record	Record details appear, if available	Pass
9	Raise Infra Issue	Submit issue	Manual	Valid issue details	Laptop/Browser	No	Low	Submit an infrastructure issue	Issue is submitted successfully	Pass
10	My Profile	Profile details	Manual	Valid student	Laptop/Browser	No	Low	Open My Profile	Profile details appear	Pass

				accou nt						

Result: Positive test scenarios for the ARMS Portal were documented. Pass labels are illustrative and should be confirmed by testing the actual portal.

Code output:

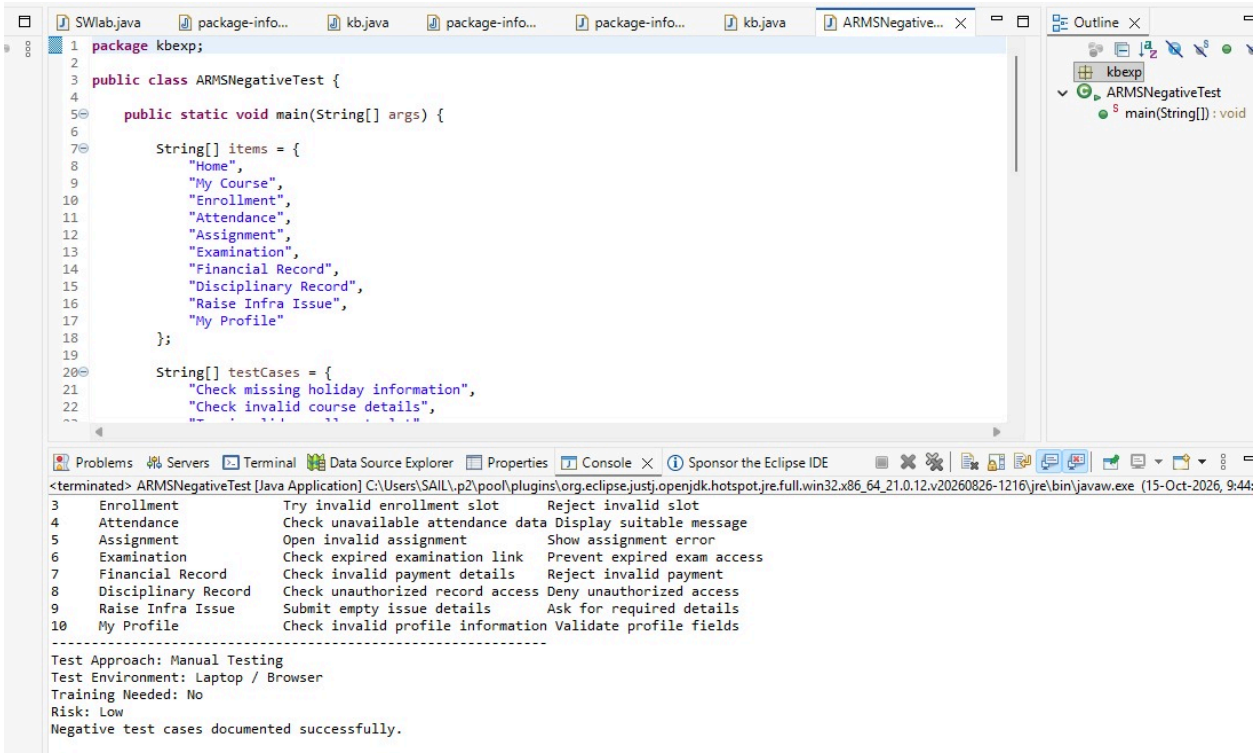

3. To write a case study to identify & analyze the requirements of ARMS Portals and to write a negative Test Scenarios as well as Test cases for the above application.

Report:

S.No.	Item to be tested	Features	Approach	Test Data	Test Environment	Training Needed	Risk	Test Case / Scenario	Expected Output	Pass/Fail
1	Home	Notifications	Manual	Missing data	Laptop/Browser	No	Low	Check home page when notifications are unavailable	Suitable message or empty state appears	To be tested
2	My Course	Course status	Manual	Invalid course details	Laptop/Browser	No	Low	Open invalid course details	Invalid course is rejected or an error appears	To be tested
3	Enrollment	Enrollment slot	Manual	Invalid slot	Laptop/Browser	No	Low	Select an invalid slot	Invalid slot is rejected	To be tested
4	Attendance	Attendance report	Manual	Unavailable data	Laptop/Browser	No	Low	Open unavailable attendance data	Suitable message appears	To be tested
5	Assignment	Assignment details	Manual	Invalid assignment	Laptop/Browser	No	Low	Open an invalid assignment	Error message appears	To be tested
6	Examination	Examination details	Manual	Expired link	Laptop/Browser	No	Low	Open an expired examination link	Access is prevented or an error appears	To be tested
7	Financial Record	Payment history	Manual	Invalid payment details	Laptop/Browser	No	Medium	Enter invalid payment details	Invalid payment is rejected	To be tested
8	Disciplinary Record	Record access	Manual	Unauthorized account	Laptop/Browser	No	Medium	Attempt unauthorized access	Access is denied	To be tested
9	Raise Infra Issue	Issue submission	Manual	Empty details	Laptop/Browser	No	Low	Submit an empty issue form	Required fields are indicated	To be tested
10	My Profile	Profile details	Manual	Invalid profile data	Laptop/Browser	No	Low	Save invalid profile information	Validation message appears	To be tested

Result: Negative test scenarios and expected outputs for the ARMS Portal were documented. Results are marked 'To be tested' because actual execution results were not supplied.

Code output:

```java
package kbexp;

public class ARMSNegativeTest {

    public static void main(String[] args) {

        String[] items = {
            "Home",
            "My Course",
            "Enrollment",
            "Attendance",
            "Assignment",
            "Examination",
            "Financial Record",
            "Disciplinary Record",
            "Raise Infra Issue",
            "My Profile"
        };

        String[] testCases = {
            "Check missing holiday information",
            "Check invalid course details",
```

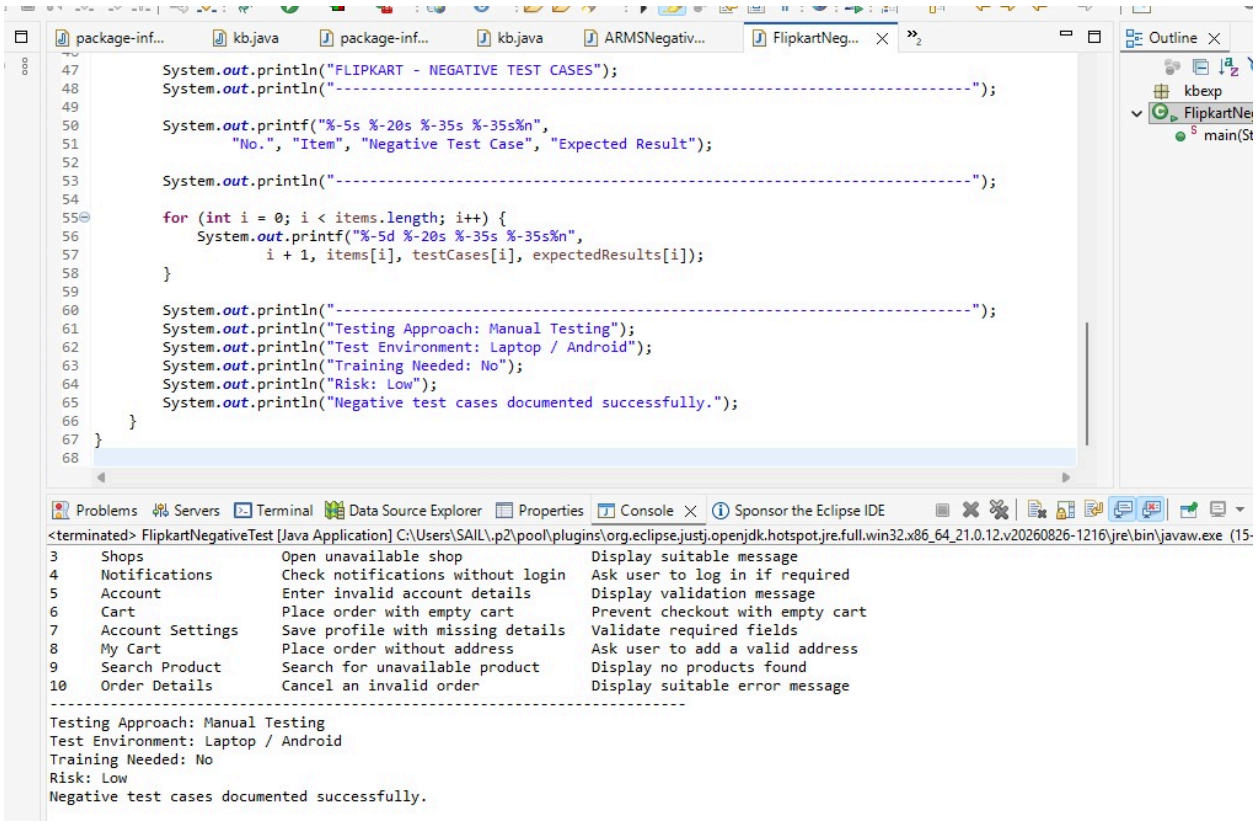

4. To write a case study to identify & analyze the requirements of e-Commerce Applications and to write a positive Test Scenarios as well as Test cases for the above application.

Report:

S.No.	Item to be tested	Features	Approach	Test Data	Test Environment	Training Needed	Risk	Test Case / Scenario	Expected Output	Pass/Fail
1	Home	Email and password	Manual	Invalid login details	Laptop/Android	No	Low	Open Flipkart and enter incorrect login details	Incorrect email or password message appears	Pass
2	Search Button	Products, brands and shirts	Manual	Incorrect product	Laptop/Android	No	Low	Search for an incorrect product	Wrong or irrelevant products may appear	Pass
3	Shops	Mobiles and fashion	Manual	Unavailable mobile	Laptop/Android	No	Low	Search for mobiles in Shops	Searched mobiles do not appear	Pass
4	Trending Stores	Student and wedding stores	Manual	Store search	Laptop/Android	No	Low	Open a trending store	Another store may open	Pass
5	Notifications	Order notifications	Manual	Placed order	Laptop/Android	No	Low	Check notifications after placing an order	Order notification does not appear	Pass
6	Account	Orders, wishlist, coupons	Manual	Account details	Laptop/Android	No	Low	Open Account and Help Centre	Help Centre does not appear	Pass
7	Account	Logout	Manual	Logged-in account	Laptop/Android	No	Low	Click Logout	Flipkart does not log out	Pass
8	Account	Edit profile	Manual	Updated profile details	Laptop/Android	No	Low	Edit and save profile	Profile is not updated	Pass
9	Cart	Place order	Manual	Product in cart	Laptop/Android	No	Medium	Attempt to place an order	Order is not placed	Pass
10	Shops	Medicines	Manual	Medicine search	Laptop/Android	No	Low	Search for medicines	Medicines do not appear	Pass

Result: Negative test cases for the Flipkart e-commerce application were documented. The Pass labels reproduce the supplied lab-record statuses and are not independently verified.

Code output:

```
        System.out.println("FLIPKART - NEGATIVE TEST CASES");
        System.out.println("--------------------------------------------------------------------------------");

        System.out.printf("%-5s %-20s %-35s %-35s%n",
                "No.", "Item", "Negative Test Case", "Expected Result");

        System.out.println("--------------------------------------------------------------------------------");

        for (int i = 0; i < items.length; i++) {
            System.out.printf("%-5d %-20s %-35s %-35s%n",
                    i + 1, items[i], testCases[i], expectedResults[i]);
        }

        System.out.println("--------------------------------------------------------------------------------");
        System.out.println("Testing Approach: Manual Testing");
        System.out.println("Test Environment: Laptop / Android");
        System.out.println("Training Needed: No");
        System.out.println("Risk: Low");
        System.out.println("Negative test cases documented successfully.");
    }
}
```

Testing Approach: Manual Testing
Test Environment: Laptop / Android
Training Needed: No
Risk: Low
Negative test cases documented successfully.
```

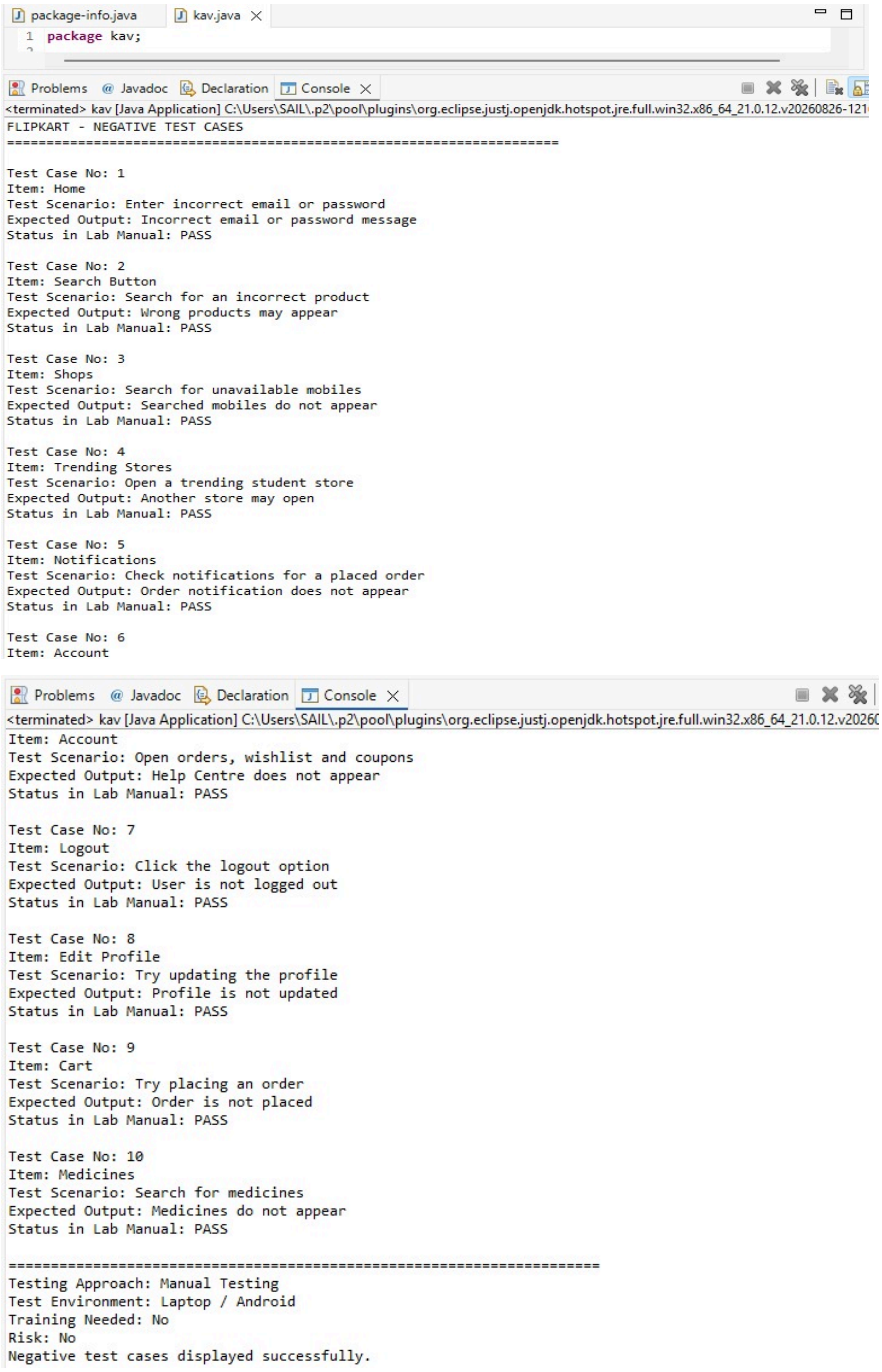

5. To write a case study to identify & analyze the requirements of e-Commerce Applications and to write a negative Test Scenarios as well as Tesi cases for the above application.

Report:

S. No.	Item to be tested	Features	Approach	Test Data	Test Environment	Training Needed	Risk	Test Case / Scenario	Expected Output	Pass/Fail
1	Home	Search, shops, notifications, account	Manual	Invalid email/password	Laptop/Android	No	Low	Open Flipkart and enter incorrect email and password	Incorrect email or password message appears	Pass
2	Search Button	Products, brands and shirts	Manual	Incorrect product	Laptop/Android	No	Low	Search for an incorrect product	Wrong products may appear	Pass
3	Shops	Mobiles, fashion, electronics	Manual	Mobile search	Laptop/Android	No	Low	Open Shops and search for mobiles	Searched mobiles do not appear	Pass
4	Trending Stores	Student and wedding stores	Manual	Store search	Laptop/Android	No	Low	Open Shops and select a trending store	Another store may open	Pass
5	Notifications	Order list	Manual	Placed order	Laptop/Android	No	Low	Check notifications for a placed order	Order notification does not appear	Pass
6	Account	Orders, wishlist, coupons	Manual	Account access	Laptop/Android	No	Low	Open Account and check Help Centre	Help Centre does not appear	Pass
7	Account	Logout	Manual	Logged-in account	Laptop/Android	No	Low	Open Account and click Logout	Flipkart does not log out	Pass
8	Account	Edit profile	Manual	Updated profile data	Laptop/Android	No	Low	Edit and save profile details	Profile is not updated	Pass
9	Cart	Place order	Manual	Product in cart	Laptop/Android	No	Low	Attempt to place an order	Order is not placed	Pass
10	Shops	Medicines	Manual	Medicine search	Laptop/Android	No	Low	Open Shops and search for medicines	Medicines do not appear	Pass

Result: Negative test cases for the Flipkart e-commerce application were documented. The Pass labels reproduce the supplied lab-record statuses and are not independently verified.

Code output:

```
package kav;
```

FLIPKART - NEGATIVE TEST CASES
======================================================================

Test Case No: 1
Item: Home
Test Scenario: Enter incorrect email or password
Expected Output: Incorrect email or password message
Status in Lab Manual: PASS

Test Case No: 2
Item: Search Button
Test Scenario: Search for an incorrect product
Expected Output: Wrong products may appear
Status in Lab Manual: PASS

Test Case No: 3
Item: Shops
Test Scenario: Search for unavailable mobiles
Expected Output: Searched mobiles do not appear
Status in Lab Manual: PASS

Test Case No: 4
Item: Trending Stores
Test Scenario: Open a trending student store
Expected Output: Another store may open
Status in Lab Manual: PASS

Test Case No: 5
Item: Notifications
Test Scenario: Check notifications for a placed order
Expected Output: Order notification does not appear
Status in Lab Manual: PASS

Test Case No: 6
Item: Account
